

Okay, here is a text-based outline for a Valorant agent guide, structured for a "Pro" difficulty level, designed to be converted into a 50-page PDF. This format prioritizes advanced concepts, nuanced strategies, and in-depth analysis.

Page Layout Notes:

- **Each Agent Section (approx. 3-5 pages):** Aim for a balance of text, bullet points, and potentially simple diagrams (if you can create them later).
- **Page Count is Approximate:** This outline assumes a reasonable amount of text per page. Adjust as needed.
- **Pro Difficulty Focus:** This guide assumes the reader has a solid grasp of Valorant fundamentals (movement, gunplay, map knowledge). It will delve into higher-level strategy and execution.
